

The Kingdom of Lesotho

Lesotho Nutrition Stakeholder and Action Mapping

July 2022

Outline

- 1. Nutritional Context in Lesotho**
- 2. Mapping Overview**
- 3. Who Does What for Nutrition?**
- 4. Geographic Coverage**
- 5. Analysis of the delivery mechanisms used**
- 6. Results by Core Nutrition Action**
- 7. Key Messages**
- 8. Acronyms**

1. Nutritional context in Lesotho

Context in Lesotho

Nutrition situation

- Chronic and acute malnutrition in children under five years have decreased since 2004, however stunting is high (33.2%*) and remains above the WHO public health threshold ;
- Across all districts, the prevalence of wasting is low (under 5%*) according to WHO classification ;
- The prevalence of anemia in children under five years has remained a critical public health issue in the recent years*.

Political commitment

- In 2014, the Kingdom of Lesotho joined the SUN Movement with a letter of commitment from Prime Minister.
- The Government of Lesotho established the Food and Nutrition Coordinating Office (FNCO), initially under the Ministry of Agriculture and then later under the Prime Minister office.
- Five SUN Networks established : business, research and academia, media, civil society and the UN. However the UN Network is the only one that is fully functional.
- Several multisectoral committees under FNCO coordination are operating in addressing nutrition issues in Lesotho.
- A High-level nutrition forum held in October 2018 showcased the importance given to nutrition at the highest political level.
- The National Nutrition Policy was launched in 2016.
- The Lesotho Food And Nutrition Strategy and Costed Action Plan (2019-2023) was launched in August 2019

2. Mapping Overview

Objectives

- Identify and document the landscape of key nutrition actors and actions across multiple sectors and link their activities, target groups and implementation mechanisms

Who does what, where and how?

- Inform coverage of beneficiaries

What % of the target group is covered?

- Identify which actions are not adequately addressed and inform scale up of nutrition actions

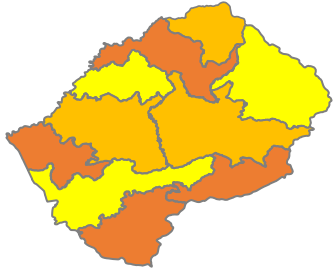

How and where to strengthen key nutrition actions?

Engage a dialogue with stakeholders to scale key nutrition actions in the country

What can the Nutrition Stakeholder & Action Mapping help you with?

For Districts

- See which partners are working on food & nutrition actions in your province
- Gain information on which actions are being conducted and where
- Know how many beneficiaries are being reached by different actions and which actions may need to be scaled up

For Ministries

- Get a better overview of who the partners are and what they do
- Identify potential gaps in the coverage of districts and coverage of beneficiaries of actions
- Help planning & scale up of nutrition actions

For UN and NGOs

- Enhance coordination though better information on which organizations are working in the same districts and/or on the same actions
- Identify which districts need further support
- See which actions may need to be scaled up and where

For Donors

- Identify which districts need further support
- See which actions need more funds to scale up
- Help identify which organizations can cover different actions and districts

Improve coordination among partners and provide necessary information for strengthening nutrition actions and planning purposes

The mapping process uses UNN/REACH mapping tool to answer key questions

To be answered with subsequent iterations of mapping

Qualitative view

Recap nutrition situation and nutrition actions
Who does what where?

- 1 What is the country nutrition situation
- 2 Who are the key stakeholders? What are their roles?
- 3 Which stakeholders are doing what where? And through which delivery mechanisms?

Quantitative view

Coverage
What % of the target population is covered?

- 4 What % of the target population is covered nationally?
- 5 What % of target population is covered per action?
- 6 What % of the target population is covered per province/district?
- 7 For each district, who is reaching what % of the target population?

Guidance for scaling up nutrition

Guidance for a stakeholder dialogue
How & where to scale up nutrition?

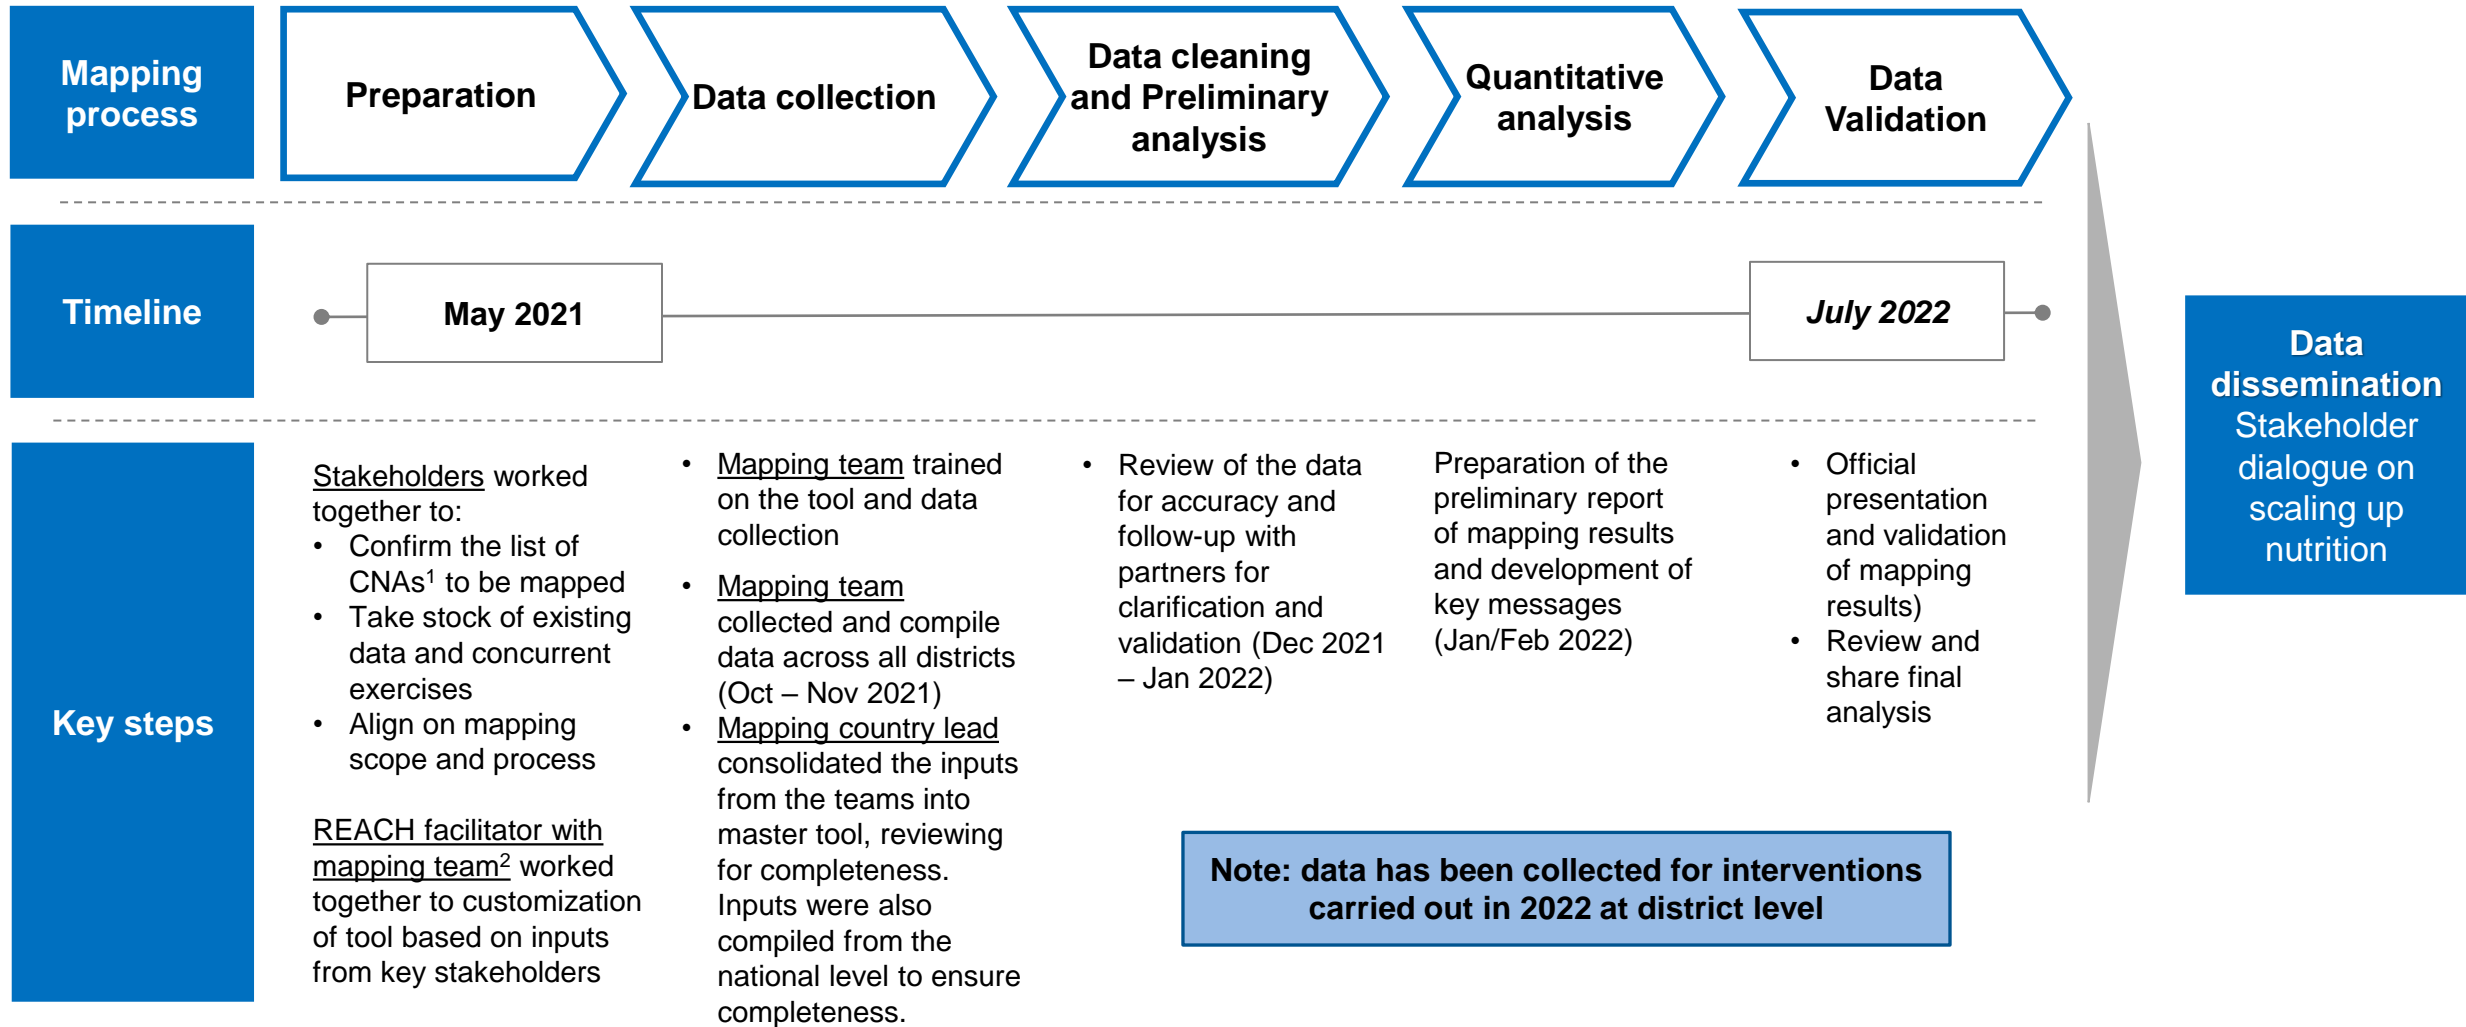

- 8 What are the stunting levels (e.g. prevalence)? What is the action intensity per province?
- 9 Which provinces are not adequately addressed?
- 10 Are children receiving the nutrition actions they may need?
- 11 Where are there action gaps in addressing key nutrition problems?
- 12 How much of the district budget is being allocated to nutrition activities?

Continuous monitoring

Implementation monitoring
Are targets achieved over time?

- 13 Is the target population coverage improving over time?
- 14 Are targets achieved as defined in the national plan?

The mapping used an inclusive multisectoral approach

1. CNAs = Core Nutrition Actions
 2. Mapping team includes staff from SUN secretaries and other key stakeholders (Government and civil society)

Core Nutrition Actions and data collected (1/3)

Thematic Category	Core Nutrition Action	Key Target Group(s)
Disease Prevention and management	Provision of ANC services during at least 4 visits to pregnant women	Pregnant Women
	Provision of at postnatal services during at least 2 visits to breast feeding women attending	Breastfeeding women
	Provision of De-worming tablets in routine for children aged 12-59 months	Children aged 12-59 months
	Treatment of children aged 0-59 with diarrhea with Zinc	Children 0-59 months with diarrhea
	Provide Prevention and treatment packages for PMTCT&HIV/AIDS, TB	Pregnant women
Food & Agriculture	Provide training on bio-fortified crops	Households
	Distribution of diversified crops and training	Households
	Distribution of short-cycle livestock and training on livestock production	Households
	Provide training, demonstration on home food preparation and preservation	Households
	Provide training and demonstration on fruit trees production.	Households
	Distribution of fruit trees	Households

Core Nutrition Actions and data collected (2/3)

Thematic Category	Core Nutrition Action	Key Target Group(s)
IYCF	Care and Counselling for IYCF on breastfeeding and complementary feeding practices	Breastfeeding women
	Provision of monthly child Growth Monitoring and Promotion (GMP)	Children 0-59 months
Management of malnutrition	Management of Moderate Acute Malnutrition	Pregnant women with MAM, breastfeeding women with MAM, children 6-59 months with MAM, HIV patients with MAM, TB patients with MAM
	Management of Severe Acute Malnutrition	Pregnant women with SAM, breastfeeding women with SAM, children 6-59 months with SAM, HIV patients with SAM, TB patients with SAM
Micronutrient supplementation & fortification	Supplementation with Vitamin A in routine breastfeeding women and children aged 6-11 and 12-59 months	Breastfeeding women and children aged 6-11 and 12-59 months
	Provision of micronutrient powders supplementation for 6-23 months	Children 6-23 months
	Micronutrient supplementation during antenatal care (Iron Folate) for pregnant and breastfeeding women	Pregnant and breastfeeding women

Core Nutrition Actions and data collected (3/3)

Thematic Category	Core Nutrition Action	Key Target Group(s)
Social protection	Provision of meals in ECCD and primary schools (school feeding)	School Age Children (Primary), Pre School Children (ECCD), ECCD centers and primary schools
	Distribution of unconditional cash-based transfer	Vulnerable households
	Distribution of food packages	Vulnerable households
WASH	Construction and rehabilitation of water sources	Communities/Households
	Construction and rehabilitation of sanitation facilities	Households
	Installation of handwashing stations	Households

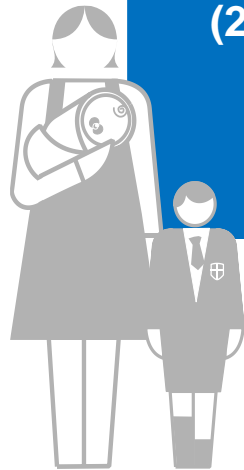

Mapping Specific Definitions

Responsible Ministry	Ministry, department or institution of the Government participating in the monitoring and evaluation of the action	Action	These are the nutrition activities or interventions that were chosen to be mapped identified in consultation with multi-sectoral stakeholders engaged in nutrition
Implementer	This role refers to all partners delivering nutrition actions directly to the beneficiaries	Delivery mechanism	A list of country-specific mechanisms that define how an action has been implemented
Catalyst	Partners who provide coordination, M&E, and/or technical assistance to the nutrition actions being mapped.	Geographic coverage	Percentage of geographical areas in which an action has been carried out (where at least one stakeholder has reached a beneficiary)
Donor	This role refers to partners who provide funding for the identified nutrition actions	Population coverage	Percentage of target group that benefited from an action, compared to the total size of that target group

• A stakeholder may assume several roles for a single action (e.g. the responsible ministry may also be the field implementer through its public servants)
 • Some roles may not be filled for each action
 • The donor role includes donors and technical partners who have funded implementing organizations

• 'Delivery mechanisms' can be strategies (e.g. campaigns or routines), human capital (e.g. extension workers, religious leaders), approaches (e.g. community-led, health centres), etc. The set of options is country-specific and decided by the government and partners engaged in nutrition

In order to determine coverage, total population of key target groups was gathered

The population of most of the key target groups for the mapping year (2020) was based on estimates from the 2014 census (e.g. stunting, children 0-59 months, women of reproductive age)

(source: 2014 Lesotho Demographic and Health Survey)

For a few of the key target groups alternative sources or additional calculations had to be made:

- **Annual caseload of children with SAM & MAM**
- **Number of extension workers/crop officers**
- **Smallholder farmers**
- **Emergency affected populations**

Disclaimer for the Nutrition Stakeholder & Action Mapping

The Lesotho Nutrition Stakeholder & Action Mapping intends to help improve nutrition coordination and scale-up discussions by providing an indicative overview of [who the stakeholders in nutrition are, where they are working, and estimated coverage of beneficiaries for selected Core Nutrition Actions](#).

Both the [geographical and beneficiary coverage are estimated](#) based on the information provided and obtained at the district level. The coverage is therefore [not to be considered as exhaustive or exact](#). Moreover, [it is voluntary to report](#), and not necessarily all stakeholders have been identified or have chosen to contribute.

The mapping has only collected data on [selected Core Nutrition Actions](#) which were developed from the Compendium of Actions for Nutrition (2016) and adapted to Lesotho's context. Organizations, both included in this mapping and not, may be working on other actions that are important for improving nutrition outcomes, however data on these actions has not been captured in this mapping. Furthermore, this mapping is [not assessing the quality](#) or accuracy of the reported coverage. Rather it can be used as an indicator of where certain areas or actions should be analyzed further.

Nutrition Actions were selected in consultations with Government Ministries and other actors selected through a multi-sectoral and multi-stakeholders approach

In addition, some [difficulties](#) were encountered [in the collection and analysis of data](#) in Lesotho:

- The time elapsed between the review (finalized in 2022) and the data collection focus (2019);
- The inability to host the DHIS2 on a customized server
- Non-returned questionnaires or unavailable key persons;
- The response/reaction time of organizations often longer than expected;
- The unavailability of data disaggregated by intervention, target groups or at district level;
- Some target groups did not systematically correspond to the reports calculated or collected by the different actors.

The results of this exercise should thus only be interpreted as [indicative and directional](#) in the context of a first exercise. [Future iterations will help to refine the approach and improve the quality of the results](#).

3. Who does what for nutrition

Core Nutrition Actions and Main Stakeholders (1/6)

	Core Nutrition Action	Responsible Ministry(s)	Catalyst(s)	Field implementer(s)	Funder(s)
Disease Prevention and Management	Provision of ANC services during at least 4 visits to pregnant women	Ministry of Health	Elizabeth Glaser Pediatric AIDS Foundation, Partners In Health, Mother to Mother, National Drug Service Organization, World Health Organization	Ministry of Health	World Health Organization, Ministry of Health, Centers for Disease Control and Prevention, Government of Lesotho, World Health Organization, USA Agency for International Development
	Provision of at postnatal services during at least 2 visits to breast feeding women attending	Ministry of Health	Elizabeth Glaser Pediatric AIDS Foundation, United Nations Population, Mothers to Mothers, National Drug Service Organization, World Health Organization	Ministry of Health, Nurses	World Health Organization, USA of Health, United Nations Population Fund, Government of Lesotho, World Health Organization, USA. Agency for International Development
	Provision of De-worming tablets in routine for children aged 12-59 months	Ministry of Health	United Nations International Children's Emergency Fund, National Drug Service Organization, World Health Organization, World Vision, Elizabeth Glaser Pediatric AIDS Foundation	Ministry of Health	Joint United Nations Program on HIV/AIDS, United Kingdom Agency for International Development, United Nations International Children's Emergency Fund, World Vision, USA Agency for International Development.
	Treatment of children aged 0-59 with diarrhea with Zinc	Ministry of Health	National Drug Service Organization, World Health Organization	Ministry of Health	United Nations International Children's Emergency Fund, USA Agency for International Development
	Provide Prevention and treatment packages for PMTCT&HIV/AIDS, TB	Ministry of Health	AIDS Foundation , Baylor, Mother to Mother, World Vision Lanka, Lesotho Network of AIDs Services Organizations, Lesotho Network of People Living with HIV and AIDS, Population Services International, United Nations International Children's Emergency Fund, National Drug Service Organization	Ministry of Health	Ministry of Health, Centers for Disease Control and Prevention, USA Agency for International Development, United Nations International Children's Emergency Fund, Elizabeth Glaser Pediatric AIDS Foundation, USA Agency for International Development, President's Emergency Plan for AIDS Relief, World Health Organization

Core Nutrition Actions and Main Stakeholders (2/6)

	Core Nutrition Action	Responsible Ministry(s)	Catalyst(s)	Field implementer(s)	Funder(s)
Food & Agriculture	Provide training on bio-fortified crops	Ministry of Agriculture and food security	Agricultural Productivity Programme for Southern Africa, Ministry of agriculture and Food Security, NUL Faculty of Agriculture, Rural Self-help Development Association(RSDA)	Ministry of agriculture and Food Security, Lesotho National Farmers Union, Rural Self-help Development Association	World Bank, Government of Lesotho, Denmark, Ministry of agriculture and Food Security.
	Distribution of diversified crops and training	Ministry of Agriculture and food security	Red Cross, World Vision Lesotho, Food and Agriculture Organization, United Nations Development Program, Ministry of agriculture and Food Security, Smallholder Agriculture Development Project	Ministry of Agriculture and food security	International Federation of Red Cross , Ministry of agriculture and Food Security, Smallholder Agriculture Development Project, World Vision USA, Global Environment Facility , World Vision Malaysia, Food and Agriculture Organization, United Nations Development Programme, Government of Lesotho, World Bank International, United Nations Development Programme for Agricultural Development, World Food Program.
	Distribution of short-cycle livestock and training on livestock production	Ministry of Social Development , Ministry of agriculture and Food Security, Ministry of Forestry Range and Soil Conservation	Wool and Mohair Promotion Project ,Ministry of agriculture and Food Security, World Vision Lesotho, Send a Cow, Smallholder Agriculture Development Project, United Nations Development Program, Development, World Vision, Ministry of Forestry Range and Soil Conservation, Food and Agriculture Organization, World Food Program	Ministry of Forestry Range and Soil Conservation, Ministry of Social Development ,Ministry of Agriculture and Food Security	World Banking, Government of Lesotho, World Vision USA, United Nations Development Program, Thembaletu Development, Wool and Mohair Promotion Project, Food and Agriculture Organization, World Food Program
	Provide training, demonstration on home food preparation and preservation	Ministry of agriculture and Food Security, Ministry of Health	Red Cross, World Vision, Catholic Relief Services, Caritas Internationalis, Food and Agriculture Organization, Karabo ea Bophelo, Touching Tiny Lives, Ministry of Agriculture and Food Security, United Nations Development Program	Ministry of Forestry Range and Soil Conservation , Ministry of agriculture and Food Security, Catholic Relief Services,	Government of Security, Catholic Vision USA, Global Environment Facility , World Vision USA, Global Vision, United Nations Development Program, Catholic Relief Services, President's Emergency Plan for AIDS Relief, Food and Agriculture Organization, Ministry of agriculture and Food Security

Core Nutrition Actions and Main Stakeholders (3/6)

	Core Nutrition Action	Responsible Ministry(s)	Catalyst(s)	Field implementer(s)	Funder(s)
Food & Agriculture	Provide training and demonstration on fruit trees production.	Ministry of Forestry Range and Soil Conservation, Ministry of agriculture and Food Security, Ministry of Gender and Youth, Sports and Recreation	Small agricultural projects, World Vision, Ministry of agriculture and Food Security, United Nations International Children's Emergency Fund, United Nations Development Programme, World Food Program, Thembalethu Development, Ministry of Forestry Range and Soil Conservation, Food and Agriculture Organization	Ministry of Forestry Range and Soil Conservation , Ministry of agriculture and Food Security, Catholic Relief Services,	European Union, World Vision, Government of Lesotho, United Nations Development Program, World Food Program, Thembalethu Development, Food and Agriculture Organization, Wool and Mohair Promotion Project
	Distribution of fruit trees	Ministry of Social Development, Ministry of Forestry Range and Soil Conservation	Structural Adjustment Technical Assistance Programme, Ministry of Social Development ,World Vision, Government of Lesotho, Thembalethu Development, United Nations Development Program, Ministry of Forestry Range and Soil Conservation, Food and Agriculture Organization	Ministry of Forestry Range and Soil Conservation, Ministry of Social Development	European Union, Ministry of Forestry Range and Soil Conservation, World Vision USA, Government of Lesotho ,Thembalethu Development, World Vision, United Nations Development Program, Food and Agriculture Organization
IYCF	Care and Counselling for IYCF on breastfeeding and complementary feeding practices	Ministry of agriculture and Food Security, Ministry of Health	United Nations International Children's Emergency Fund, SolidarMed, World Vision Lesotho, Elizabeth Glaser Pediatric AIDS Foundation , Mother to Mother, Ministry of Health	Ministro of Health	USA Agency for International Development, SolidarMed, World Vision Malaysia, Government of Lesotho ,United Kingdom Agency for International Development, President's Emergency Plan for AIDS Relief, World Vision, United Nations Children's Fund
	Provision of monthly child Growth Monitoring and Promotion (GMP)	Ministry of Health	Ministry of Health, United Nations International Children's Emergency Fund, Government of Lesotho of Lesotho, World Vision, World Health Organization, Elizabeth Glaser Pediatric AIDS Foundation United Nation Development Programme	Ministro of Health	United Kingdom Agency for International Development, Government of Lesotho, United Nations International Children's Emergency Fund, USA Agency for International Development, President's Emergency Plan for AIDS Relief

Core Nutrition Actions and Main Stakeholders (4/6)

	Core Nutrition Action	Responsible Ministry(s)	Catalyst(s)	Field implementer(s)	Funder(s)
Management of malnutrition	Management of Moderate Acute Malnutrition	Ministry of Health	United Nations International Children's Emergency Fund, Partners In Health, Elizabeth Glaser Pediatric AIDS Foundation , Mother to Mother, World Health Organization	Ministry of Health	USA Agency for International Development, United Nations International Children's Emergency Fund, United Kingdom Agency for International Development
	Management of Severe Acute Malnutrition	Ministry of Health	United Nations International Children's Emergency Fund, Partners In Health, Elizabeth Glaser Pediatric AIDS Foundation, Mother to Mother, World Health Organization,	Ministry of Health	United Nations International Children's Emergency Fund, World Health Organization, USA Agency for International Development
Micronutrient supplementation & fortification	Supplementation with Vitamin A in routine breastfeeding women and children aged 6-11 and 12-59 months	Ministry of Health	National Drug Service Organization, United Nations International Children's Emergency fund, Mother to Mother, Elizabeth Glaser Pediatric AIDS Foundation, World Vision, World Health Organization, Ministry of Health	Ministry of Health	United Kingdom Agency for International Development, USA Agency for International Development, United Nations International Children's Emergency Fund, World Vision
	Micronutrient powders supplementation for 6-23 months	Ministry of Health	National Drug Service Organization and United Nations International Children's Emergency Fund	Ministry of Health	United Kingdom Agency for International Development, USA Agency for International Development
	Micronutrient supplementation during antenatal care (Iron Folate) for pregnant and breastfeeding women	Ministry of Health	United Nations International Children's Emergency Fund	Ministry of Health	

Core Nutrition Actions and Main Stakeholders (5/6)

	Core Nutrition Action	Responsible Ministry(s)	Catalyst(s)	Field implementer(s)	Funder(s)
Social protection	Provision of meals in ECCD and primary schools (school feeding)	Ministry of Education and Training	Government of Lesotho ,World Food Program, Food Management Unit(FMU), Lesotho Red Cross Society, Ministry of Education and Training	Ministry of education and training,Caterers	World Food Program, Government of Lesotho, China AID, Ministry of Education and Training
	Distribution of unconditional cash-based transfer	Disaster Management Authority, Ministry of Social Development , Prime Minister's Office, Food and Nutrition Coordination Office, Ministry of agriculture and Food Security, Ministry of Health, Rural Water Supply, Ministry of Education and Training, Lesotho Red Cross Society Society, Ministry of Forestry Range and Soil Conservation	Disaster Management Authority, United Nations International Children's Emergency Fund, G4S Security, Road Fund, United Nations Development Programme, Vodacom, World Food Program, Government of Lesotho, Ministry of Forestry Range and Soil Conservation, Ministry of Social Development	Ministry of social Development, Food and Nutrition Coordination Office, Disaster Management Authority, Ministry of agriculture and Food Security, Ministry of Health, Ministry of Development Planning, Rural Water Supply, Lesotho Red Cross Society , Ministry of Education and Training, Ministry of Forestry Range and Soil Conservation.	United Nations International Children's Emergency Fund, International Federation of Red Cross , Bank, Government of Lesotho , European Union, TEBA, Central Emergency Response Fund
	Distribution of food packages	Ministry of Social Development , Prime Minister's Office, Disaster Management Authority, Food and Nutrition Coordination Office, Ministry of agriculture and Food Security, Ministry of Health, Lesotho Red Cross Society, Ministry of Education and Training	Food Management Unit, Government of Lesotho ,World Food Program, CHINA,INDIA, World Vision Lesotho, Ministry of Social Development, Disaster Management Authority	Ministry of Social Development , Disaster Management Authority, Food and Nutrition Coordination Office, Ministry of agriculture and Food Security, Ministry of Health, Lesotho Red Cross Society Society, Ministry of Education and Training, World Food Program, Disaster Management Authority, Matekane Group of Company	NACOSEC, owners, China, Japan, India, Government of Lesotho, World Food Program, World Vision Lesotho, Matekane Group of Campony

Core Nutrition Actions and Main Stakeholders (6/6)

	Core Nutrition Action	Responsible Ministry(s)	Catalyst(s)	Field implementer(s)	Funder(s)
WASH	Construction and rehabilitation of water sources	Rural Water Supply, Ministry of Forestry Range and Soil Conservation , Ministry of Water Affairs.	Government of Lesotho , World Vision, Rural Water Supply, Ministry of Forestry Range and Soil Conservation, WASCO	Rural Water Conservation, WASCO, Ministry of Forestry Range and Soil Conservation, Ministry of Water Affairs	World Vision, WASCO, Government of Lesotho , United Nations International Children's Emergency Fund
	Construction and rehabilitation of sanitation facilities	Rural Water Supply, Ministry of Health, Ministry of Water Affairs	Government of Lesotho ,Red Cross, World Vision, Ministry of Health, Rural Water Supply, WASCO	Rural Water Supply, WASCO, Ministry of Water Affairs, Ministry of Health, Lesotho Red Cross Society	World Vision, WASCO, Government of Lesotho ,Red Cross, Millennium Challenge Corporation
	Installation of handwashing stations	Rural Water Supply, Ministry of Health, Ministry of Water Affairs	Ministry of Health, Government of Lesotho, United Nations International Children's Emergency Fund, Lesotho Red Cross Society, Ministry of Education and Training	Rural Water supplied Cross, Ministry of Health, Lesotho Red Cross Society Society, Health Regional Collaboration Center, Ministry of Water Affairs, Environmental Health	World Vision, United Kingdom Agency for International Development, Government of Vision, United Lesotho bank ,United Nations International Children's Emergency fund ,Ministry of Education and Training

4. Geographic Coverage

How many Districts are Covered by each Core Nutrition Action?

21 actions cover more than 60% of the Districts.

Thematic Area	Core Nutrition Action	# of locations where CNA is implemented	Berea	Butha Buthe	Leribe	Mafeteng	Maseru	Mohale's Hoek	Mokhotlong	Qacha's Nek	Quthing	Thaba Tseka
Disease Prevention and Management	Provision of ANC services during at least 4 visits to pregnant women	9	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
	Provision of at postnatal services during at least 2 visits to breast feeding women attending	10	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
	Provision of De-worming tablets in routine for children aged 12-59 months	8	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
	Treatment of children aged 0-59 with diarrhoea with Zinc	2	No	No	No	No	No	No	No	No	No	Yes
	Provide Prevention and treatment packages for PMTCT&HIV/AIDS, TB	10	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
IYCF	Care and Counselling for IYCF on breastfeeding and complementary feeding practices	10	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
	Provision of monthly child Growth Monitoring and Promotion (GMP)	7	No	Yes	Yes	No	Yes	Yes	Yes	Yes	Yes	No
Management of Malnutrition	Management of Moderate Acute Malnutrition	8	Yes	No	Yes	Yes	Yes	Yes	Yes	No	Yes	Yes
	Management of Severe Acute Malnutrition	7	Yes	Yes	Yes	No	Yes	No	Yes	Yes	Yes	Yes

Action with coverage across 60% + districts

How many Districts are Covered by each Core Nutrition Action?

21 actions cover more than 60% of the Districts.

Thematic Area	Core Nutrition Action	# of locations where CNA is implemented	Berea	Butha Buthe	Leribe	Mafeteng	Maseru	Mohale's Hoek	Mokhotlong	Qacha's Nek	Quthing	Thaba Tseka
Micronutrient Supplementation & Fortification	Supplementation with Vitamin A in routine breastfeeding women and children aged 6-11 and 12-59 months	10	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
	Provision of micronutrient powders supplementation for 6-23 months	4	No	Yes	Yes	No	No	No	Yes	Yes	No	No
	Micronutrient supplementation during antenatal care (Iron Folate) for pregnant and breastfeeding women	2	No	Yes	Yes	No	No	No	No	No	No	No
Food & Agriculture	Provide training on bio-fortified crops	6	Yes	No	Yes	Yes	Yes	No	Yes	No	Yes	No
	Distribution of diversified crops and training	7	No	Yes	Yes	Yes	No	Yes	Yes	Yes	Yes	No
	Distribution of short-cycle livestock and training on livestock production	10	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
	Provide training, demonstration on home food preparation and preservation	10	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
	Provide training and demonstration on fruit trees production.	8	Yes	Yes	Yes	No	Yes	Yes	Yes	Yes	No	Yes
Distribution of fruit trees	10	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	

 Action with coverage across 60% + districts

How many Districts are Covered by each Core Nutrition Action?

21 actions cover more than 60% of the Districts.

Thematic Area	Core Nutrition Action	# of locations where CNA is implemented	Berea	Butha Buthe	Leribe	Matfeteng	Maseru	Mohale's Hoek	Mokhotlong	Qacha's Nek	Quthing	Thaba Tseka
Social Protection	Provision of meals in ECCD and primary schools (school feeding)	10	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
	Distribution of unconditional cash-based transfers	9	Yes	Yes	Yes	Yes	Yes	Yes	Yes	No	Yes	Yes
	Distribution of food packages	6	Yes	Yes	Yes	No	No	Yes	No	No	Yes	Yes
WASH	Construction and rehabilitation of water sources	9	Yes	Yes	Yes	Yes	No	Yes	Yes	Yes	Yes	Yes
	Construction and rehabilitation of sanitation facilities	8	Yes	Yes	Yes	Yes	No	Yes	Yes	No	Yes	Yes
	Installation of handwashing stations	8	Yes	Yes	Yes	Yes	Yes	No	Yes	No	Yes	Yes

 Action with coverage across 60% + districts

5. Analysis of the Delivery Mechanisms Used

What are the delivery mechanisms related Disease Prevention and Management, IYCF, Management of Malnutrition and Micronutrient supplementation & fortification?

10 mechanisms are used in the implementation of these actions. Could we rely more on other channels that are less used to reach our targets?

Core Nutrition Actions		Area Technical Officers - Agric Ext. Workers	Area Technical Officers - Nutrition	Campaigns	Health Facilities	Maternal & Child Health	Nutrition Clubs	Outreach Clinics	Trainings	Under-5 Clinics	Village Health Workers
Disease Prevention and Management	Provision of ANC services during at least 4 visits to pregnant women										
	Provision of postnatal services during at least 2 visits to breast feeding women attending										
	Provision of De-worming tablets in routine for children aged 12-59 months										
	Treatment of children aged 0-59 with diarrhoea with Zinc										
	Provide Prevention and treatment packages for PMTCT&HIV/AIDS, TB										
IYCF	Care and Counselling for IYCF on breastfeeding and complementary feeding practices										
	Provision of monthly child Growth Monitoring and Promotion (GMP)										

What are the delivery mechanisms related Disease Prevention and Management, IYCF, Management of Malnutrition, and Micronutrient supplementation & fortification?

10 mechanisms are used in the implementation of these actions. Could we rely more on other channels that are less used to reach our targets?

Core Nutrition Actions		Area Technical Officers - Agric Ext. Workers	Area Technical Officers - Nutrition	Campaigns	Health Facilities	Maternal & Child Health	Nutrition Clubs	Outreach Clinics	Trainings	Under-5 Clinics	Village Health Workers
Management of malnutrition	Management of Moderate Acute Malnutrition										
	Management of Severe Acute Malnutrition										
Micronutrient supplementation & fortification	Supplementation with Vitamin A in routine breastfeeding women and children aged 6-11 and 12-59 months										
	Provision of micronutrient powders supplementation for 6-23 months										
	Micronutrient supplementation during antenatal care (Iron Folate) for pregnant and breastfeeding women										

What are the delivery mechanisms related to Food & Agriculture, Social Protection, and WASH?

25 mechanisms are used in the implementation of these actions. Could we rely more on other channels that are less used to reach our targets?

Core Nutrition Actions		Agri-businesses	Area Technical Officers - Agric Ext. Workers	Area Technical Officers - Nutrition	Bank Transfer	Campaigns	Communities	Community Based Organisations	Community Water Minders	Cooperatives	Demonstrations	Distribution	ECCD Centres	Environmental Field Workers	Media	Nutrition Clubs	Primary Schools	Producers	Public Gatherings	Rural Water Supply	School Cooks & Caterers	Social Service Centres	Social Services Outreach Workers	Teachers	Trainings	Village Health Workers

	Distribution of food packages																										
WASH	Construction and rehabilitation of water sources																										
	Construction and rehabilitation of sanitation facilities																										
	Installation of handwashing stations																										

How many districts are covered by each action?

Stunting Prevalence

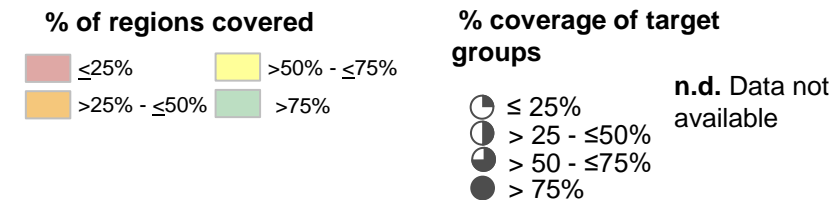

Number of Core Nutrition Actions Identified across Regions

6. Geographic and target group coverage presented by key intervention

Presentation of interventions, target groups and implementation mechanisms (1/3)

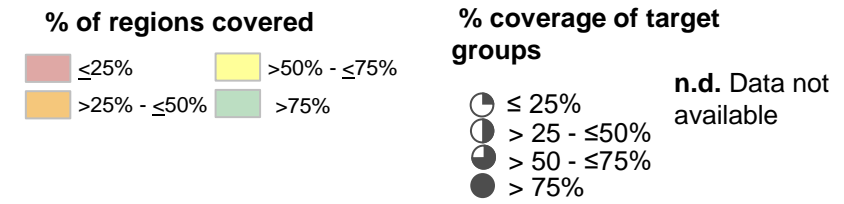

16 actions cover more than 75% of the regions.

Thematic areas	Key nutrition actions	Coverage	Associated target group(s)	% of target group covered	Delivery Mechanism(s)
Disease Prevention and Management	Provision of ANC services during at least 4 visits to pregnant women	9/10	Pregnant Women		Health Facilities, Maternal & Child Health, Outreach Clinics
	Provision of at postnatal services during at least 2 visits to breast feeding women attending	10/10	Breastfeeding Women		Health Facilities, Maternal & Child Health, Outreach Clinics
	Provision of De-worming tablets in routine for children aged 12-59 months	8/10	Children aged 12-59		Health Facilities, Maternal & Child Health, Outreach Clinics, Under-5 Clinics, Village Health Workers
	Treatment of children aged 0-59 with diarrhea with Zinc	2/10	Pregnant Women		Health Facilities, Maternal & Child Health
	Provide Prevention and treatment packages for PMTCT&HIV/AIDS, TB	10/10	Pregnant Women		Health Facilities, Maternal & Child Health, Outreach Clinics, Under-5 Clinics, Village Health Workers
Food & Agriculture	Provide training on bio-fortified crops	10/10	Households		Agri-businesses, Area Technical Officers - Agric Ext. Workers, Area Technical Officers - Nutrition, Communities
	Distribution of diversified crops and training	7/10	Households		Area Technical Officers - Agric Ext. Workers, Area Technical Officers - Nutrition, Communities
	Distribution of short-cycle livestock and training on livestock production	8/10	Households		Area Technical Officers - Agric Ext. Workers, Communities, Community Based Organizations, Distribution, Public Gatherings, Trainings
	Provide training, demonstration on home food preparation and preservation	7/10	Households		Area Technical Officers - Nutrition, Communities, Demonstration, Nutrition Clubs, Trainings

Presentation of interventions, target groups and implementation mechanisms (2/3)

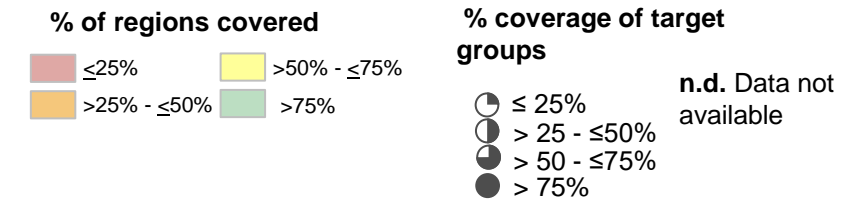

16 actions couvrent plus que 75% des régions.

Thematic areas	Key nutrition actions	Coverage	Associated target group(s)	% of target group covered	Delivery Mechanism(s)
Food & Agriculture	Provide training and demonstration on fruit trees production.	10/10	Households		Area Technical Officers - Agric Ext. Workers, Communities, Community Based Organisations, Environmental Field Workers, Public Gatherings, Trainings
	Distribution of fruit trees	4/10	Households		Area Technical Officers - Agric Ext. Workers, Area Technical Officers - Nutrition, Communities, Community Based Organisations, Cooperatives, Demonstrations, Distribution, Environmental Field Workers, Media, Primary Schools, Producers
IYCF	Care and Counselling for IYCF on breastfeeding and complementary feeding practices	2/10	Breastfeeding Women		Area Technical Officers - Agric Ext. Workers, Area Technical Officers - Nutrition, Health Facilities, Maternal & Child Health, Nutrition Clubs, Outreach Clinics, Trainings

8. Key Messages

- 22 Responsible Ministries, 6 catalysts, 28 field implementers and 26 donors ensured the implementation of the 24 prioritized key nutrition actions in 2019 in Lesotho
- Among the 22 responsible Ministries that ensured the implementation of core nutrition actions in 2019 in Lesotho, the Ministry of Health is identified the most across all districts.
- 21 core nutrition actions cover more than 60% of the districts.
- No actions are identified in the Mokhotlong district related to severe acute malnutrition while the district has the highest prevalence of Global Acute Malnutrition.
- No actions related to moderate acute malnutrition are identified in the Qacha Nek district while the district has among the highest prevalence of global acute malnutrition in the country.
- The Qacha Nek district has among the lowest rates of children consuming Vitamin-A rich foods while the district records the least amount of beneficiaries reached by this core nutrition action. .
- 35 implementation mechanisms are used. Most of the actions are implemented through health facilities
